I hereby state that I am applying for my principal residence which is within the Municipality of Yarmouth; I am the owner; I have not received a sign and/or post from the previous program; if applying for a post I will pay the \$23.00 at the time of pick up. **The information I have supplied is true and correct to the best of my knowledge.**

Signature _____ Date: _____

THANK YOU for your application.

All applications will be processed on a first come first serve basis. There are a limited number of signs and posts available. Should you have any questions about this program please contact us at 742-9691. **The information collected on this application will NOT be used for any other purpose other than the Civic Signs program.**

Guidelines for Installing your Sign

The civic number shall be displayed on the same side of the road as the building or property is located.

The distance between the bottom of the numbers and the ground should be at least 36 inches (90 centimeters).

The posted civic sign should be between 12 and 50 feet of the closest edge of the traveled portion of the road which forms part of the civic address for the building or lot.

The sign should be perpendicular to the road, and be clearly visible from the roadway.

The numbers on the sign should not be less than 2.5 inches in height.

Is it ok to post it on my house?

This is **not** recommended but may be better than no sign. Posting your civic number on your house means that it may be only visible when your house can be seen from the road, and not necessarily from both directions. If this is the method that you choose, please use the following guidelines:

Numbers should be placed on the building facing, and clearly visible from the roadway. If the numbers are posted on a building more than 50 feet (15 m) from the roadway, the numbers should not be less than 4 inches (100 mm) in height.

How to Install Your Civic Sign
